

Whether as a DJ, producer, dub maker or professional sound engineer (Uclan/S.S.R. London UK) Dub Troubles delivers top ranking sounds & top ranking quality! With 15 years of performing under his belt Dub Troubles has been all over, sharing stages with legends like Ken Booth and Earl 16, working with collectives across the UK & Spain like 'Afrobeat DJ's' and 'Irie Lion Sound' and even operating the massive 'Blackboard Jungle Sound System' at the Rototom/Dub Academy festival.

What makes Dub Troubles a force to be reckoned with in the modern reggae scene is his combined love for 80's reggae & dub along with an ear for more contemporary sounds like deep dubstep, dub-techno & bass music. He can craft a riddim that will take listeners back to the dancehalls of 1980's Jamaica, full of skanking melodies and roots style echoes or bring them into a darker atmosphere of progressive underground club music. Whichever direction he aims the result is always a heavyweight sound with an individuality like no other!

His passion for music and unique output has seen him set up & run both 'Fat Bird Recordings' and 'Spin Force Records', each platform offering the world a truly unrivaled vibe. 'Fat Bird Recordings' focuses on digital reggae and is known internationally as one of the top labels to watch for the best modern releases in the genre. With Dub Troubles on riddim & dubbing duty and a roster of artists taking in Jamaica, France, Spain, UK, USA, Russia & beyond the label delivers a classic oldschool digi-reggae sound with the benefit of modern production technique. Listen to any radio dj, festival sound-system or online podcast that deals in digital rubadub and you're certain to hear that 'Fat Bird' sound! On the flip-side 'Spin Force Records' has its vision set to the future and offers a progressive bass music sound taking in elements of hip-hop along with reggae & dub. The blend of sounds creates an unforgettable atmosphere that fits perfectly on the modern sound system scene.

Currently he is working on fresh sounds in both styles, collaborating with international singers such as George Palmer, Tibio, ALLB, Natty Nature & Tunelon Iration. Not content with simply releasing on his own label you'll also hear Dub Troubles works on labels such as 'Dub Communication' & 'Break Koast'. Keep your eyes open & ears in tune to catch him playing at a club, festival or sound-system event near you!
